

We're Improving the Gas System along Old Hook Road near the borders of Closter and Harrington Park.

This critical work will help keep your gas service safe and reliable. Read below to learn more.

PSE&G and our approved contractors will be upgrading aging underground gas pipes with new piping.

Please note, there will be multiple lane closures along the streets below:

- **Old Hook Road between Bogert Mill Road and Schraalenburgh Road (Eastbound)**
- **Old Hook Road between Schraalenburgh Road and Bogert Mill Road (Westbound).**

Beginning the week of October 1, 2026, intermittent work is expected to take place through mid-November 2026.

To upgrade the gas lines, we dig trenches and lay new pipes. As with any construction project, you will experience changes in traffic patterns, loud noise, and the presence of heavy equipment and machinery. We are working with the affected municipalities and local police departments to implement traffic plans and traffic-control measures, including temporary lane closures and detours, to ensure safety and reduce disruptions during this work.

Work hours will vary, Monday through Friday, with potential for weekend work. Schedules are estimates, weather dependent and subject to change. Detour signs will be posted in advance. Throughout the duration of construction, please allow additional travel time or plan alternate routes.

PSE&G is committed to maintaining excellent customer service, and will restore any disturbances in kind when work is completed. Concrete or asphalt openings will be patched until final restoration work is scheduled. The time between construction and final restoration may vary depending on weather conditions and time of year.

For more information about this project, as well as specific information about your neighborhood, please visit pseg.com/GasWork. To reach a project representative directly, call our dedicated hotline at 1-833-661-6100. As a general reminder, if you smell gas, leave the area and call 911 or PSE&G at 1-800-880-PSEG (7734).
